

Seawall Inspections

The Frenchtown RDA has scheduled Mannik & Smith Group to perform seawall inspections via drone flights throughout the Resort District between **July 27th and July 31st, 2026**.

The drone will be used to capture aerial imagery of the seawalls as part of an assessment of their current condition. The inspections are expected to be brief in each area, and no action is required from homeowners.

We kindly ask that you share this information with the homeowners in your association so that they are aware of the planned drone activity during this time. Providing advance notice will help prevent any unnecessary concerns or questions when the drone is operating near their properties.

We appreciate your assistance in helping keep residents informed. If you have any questions, please feel free to contact us.

Sincerely,

Janae Jones, Administrative Assistant
